

# Meet the Buyer 13.11.2024

**oPEN Lab** is an EU-funded project leading the transition to Positive Energy Neighbourhoods (PENs) across Europe.

There are 3 regional “Meet the Buyers” events for oPEN Lab. These will invite flagship organisations involved in mass renovation and energy efficient housing developments across Europe. The goal is connecting the oPEN Lab innovators to the wider market, allowing them to scale their business beyond the project. This is part of the replication and scaling task, to help project partners to find opportunities and start creating value beyond the project.

## Meet the Buyer - Tartu (Estonia)

**ONLINE - 13th of November from 13:00 to 15:00**

### Agenda:

- Martin Talts - KMT Prefab: Renovation of buildings with prefabricated insulation elements, including possibilities for buildings higher than 5 stories.
- Joel Heinsalu - Solarstone: Solar panels for buildings and surrounding landscape design, including integrated insulation elements.
- Kaspar Kriisk - Enefit: Comprehensive electrical system for apartment buildings (PV panels, joint procurement, batteries, and EV chargers).
